

Journalists Use Precise Words When Writing An Article

Precise words make the article more appealing, engaging, and tempting to read.

How do you use precise words to say exactly what you want?

1. Vary the length of the words.
2. Have some fancy words and some plain words.
3. To make your article interesting, use words relevant to the topic.

Example: Doctors have an **ample** amount of masks and inhalers for coronavirus patients. It is **flabbergasting** that they are running out. Andy Denham, a doctor, **said**, “This is a **scary** time. Doctors are risking their **lives** without face masks.
