# Setting of Ch. 1 of *Sisters Grimm*

*April 6, 2020*

The setting is chapter one is mysterious. First, someone fostering Sabrina and was Daphne was claiming she was their grandmother even though their father told them that they had no grandmother because she died before they were even born! They then were sent to a very strange location and their grandmother carried so many keys that unlock so many locks on the front door. It is strange why they would need so many locks on their front door. At the end of the chapter the girls encounter some lightning bugs outside their window. Then Mr. Canis just barged into their room demanding they never open doors or windows or let anyone in.

# Traveling Alongside My Character

April 7, 2020

Sabrina is stubborn because she refuses to believe her grandmother whom she thought was dead because her father told her she had no grandmother. She only believes what her father says and knows he will come back even though he is gone.

Sabrina

Sabrina isn't open minded and refuses to listen and accept anything Mrs. Grimm tells them though it is true. She only listens to her parents and because she doesn't know they lied to her. She refuses to accept anything that shows her parents lied.

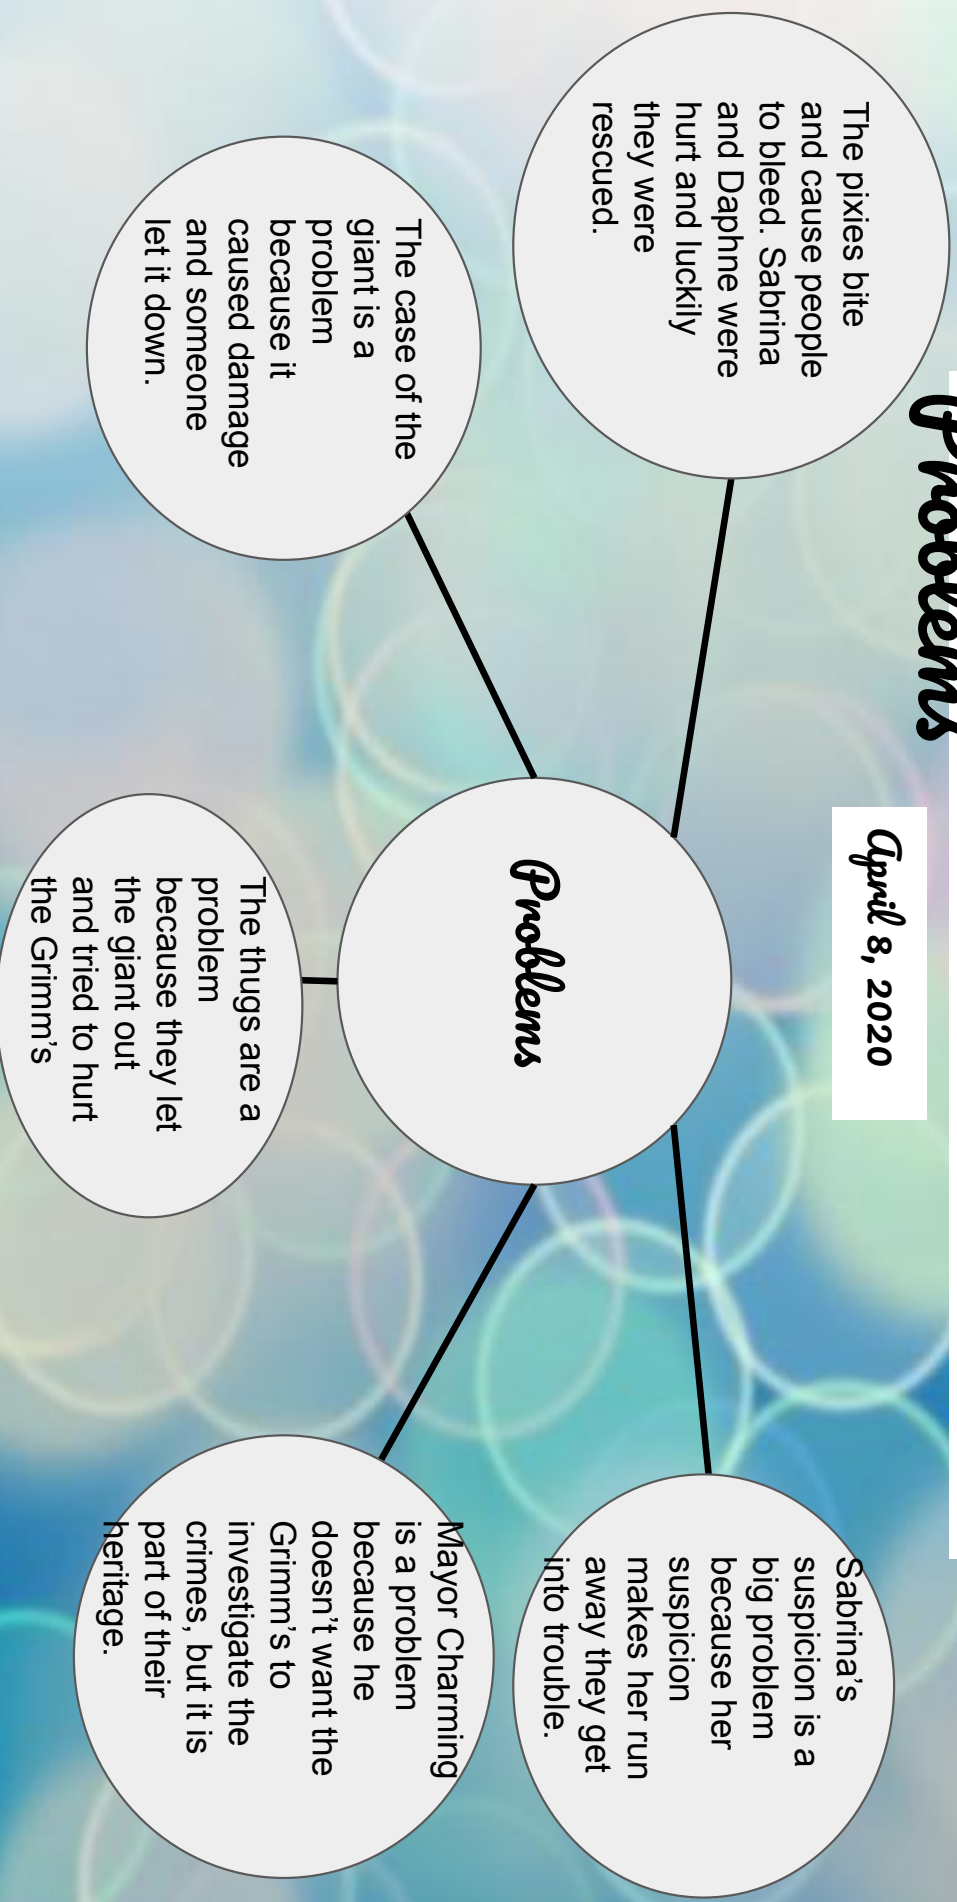

Sabrina from *Sisters Grimm* is a very cautious character. She believes Mrs. Grimm is trying to trick them from her experiences at foster homes and believes that her father was telling the truth about everything, but even though he lied she still chooses not to believe her grandmother Mrs. Grimm.

Sabrina is very protective. She doesn't want Daphne to get hurt and concealed some information she owned. She doesn't like it when Daphne starts loving Relda Grimm and trusts no one but Daphne.

# *Lessons and Themes*

*April 10, 2020*

A lesson I am learning is that in life, you must decide who to trust and who to not. Sabrina decided not to trust Relda Grimm even though she was very kind and gave them delicious food. She decides to trust her father who lied to her because he wanted to give her a normal life. If she had trusted Relda Grimm she wouldn't have put her and Daphne in danger like with the angry pixies. Another theme is loyalty. In life, you need to stand by your friends and family. Sabrina and Daphne learn this when Sabrina realizes that she was so busy trying to get away from Mrs. Grimm that she didn't think what Daphne thought. Daphne was loyal to both Mrs. Grimm and Sabrina, but when Sabrina wasn't loyal to Daphne and tried to run away with Daphne they both realized that they had to be loyal to each other and share their thoughts and ideas.

# My Letter

April 14, 2020

Dear Reema,

When I first started reading *Sisters Grimm* I never knew how amazing the novel was. It was so well explained I felt like I was right next to Sabrina and Daphne feeling what they were too. Reading this novel allowed me to run away from the coronavirus and into the world of my imagination, the world where I will always rather be in this time. It is a shame that the book is about to end. While reading this book I have learned many new things.

While reading this book I have learned to always be loyal to the people I care for. Sabrina from *Sisters Grimm* learns this when her grandmother, Relda Grimm got snatched by a giant and Sabrina realizes that Mrs. Grimm never lied to her. She finally realized that she has been so keen on her own thoughts and feelings that she forgot about Daphne and what she wanted. She made it up to her sister and told her that Daphne's feelings did matter and that Sabrina should've listened. Sabrina realized she wasn't loyal to Daphne at all when they were received by Relda Grimm.

This novel is now considered as one that I would like to read again just like some other series. I never thought it could be this good. I hope that you're enjoying this as much as I am.

Sincerely,  
Emily Chang
